Interim Pecos Road

During construction, local traffic will be maintained in the existing Pecos Road corridor. In early-2017, the eastbound lanes of Pecos Road will be widened to accommodate two lanes of traffic in each direction. Once the freeway is complete, local traffic will be detoured onto the freeway lanes while construction is completed. Lane restrictions and periodic closures of the interim Pecos Road will be required throughout construction.

Location of Early-Mid 2017 Construction

Construction SCHEDULE: Anticipated Start Dates

Welcome! This first Loop 202 (South Mountain Freeway) construction notice provides an overview of the 2017 construction schedule and location of major activities which are anticipated to begin in early-to-mid-2017. Actual start dates may change based on utility relocations, right-of-way acquisition and other factors.

Most construction will occur on weekdays, although some construction activities will require work every day and at night to complete the freeway by late 2019.

Construction schedules and maps are available on the project website and updated frequently. Outreach coordinators will provide additional notices to residents, businesses, schools and homeowner associations who may be directly impacted by the construction.

Project Website: www.SouthMountainFreeway.com
Email: SMFinfo@C202P.com
Hotline: 1-855-SMF-L202 (1-855-763-5202)
En español: 623-239-4558
The following sections outline the general construction activities planned for 2017 in each segment. Maps indicate the location of construction activities planned to begin in early to mid-2017. These dates are subject to change.

Check the project website (www.SouthMountainFreeway.com) for updated schedules and maps. ADOT/C202P will publish a construction phasing schedule twice a year or more frequently if significant changes are made.

Final Design Update

Thank you to those who participated in the preliminary design public meetings held in September and October 2016 and who provided input during the comment period. The project team received over 600 comments on the preliminary design plans during this process. Design changes are being considered. The public will be notified when final decisions are made.

As sections of the design are complete, construction will begin in those areas. Segment designs are expected to be fully complete based on the schedule below. Dates are subject to change.

- I-10 Papago Segment – June 2017
- Salt River Segment – August 2017
- Center Segment – July 2018
- Pecos Segment – March 2017

Stay in the Loop

Lower Buckeye Road southeast to 51st Avenue

Stay Safe!

Safety is one of ADOT and C202P’s top priorities. By following ‘the three S’s’ – speed, space and stress – you can help ensure that everyone, including you, other motorists and construction workers, gets home safely to their families and without incident.

Speed – Slow down when approaching work zones and follow posted speed limits.

Space – Leave plenty of space between your vehicle and the one ahead of you as well as traffic barriers, trucks, construction equipment and workers.

Stress – Keep your cool. Remember, this is only temporary; you will soon have a much better commute. Plan ahead, leave a bit earlier or use public transit to reduce your commute.

NOTE: If you live near a construction zone, please do not use the open areas for dumping trash, and please prevent your children from playing in these restricted work areas.

Sign Up for Weekly Traffic Alerts

Each week, the project team issues a South Mountain Freeway Traffic Alert listing the lane restrictions and closures for the coming week. Sign up today to get your alert via email or text message at www.SouthMountainFreeway.com/FollowUs.
